OBJECTIVE

Full Stack Web Developer (MERN & Next.js) I have more than 1 years of experience building scalable web applications. Passionate about designing efficient architectures, solving complex problems, and deploying production-ready applications on Render , Netlify and Vercel, seeking full-time web developer roles.

EDUCATION

Bachelor of Technology in Computer Science, Chouksey Engineering College

2021 - 2025

SKILLS

Programming Languages	JavaScript, TypeScript
Front-end Development	HTML, CSS, React.js, Next.js, Tailwind CSS, Redux Toolkit, ShadCn , Zustand
Backend Development	Node.js, Express.js, PostgreSQL, MongoDB, Supabase , Clerk
Tools and Technologies	Git, GitHub, Redis, Zod, Postman, Netlify, Vercel, Render

EXPERIENCE

Web Developer Internship (E-Tech pvt. Ltd)

July 2024- Dec 2024

- Learned essential web technologies such as Html , Css , Javascript , React.
- Utilized React library to build a dynamic and efficient web application.
- Managed all phases of the software development lifecycle, including requirements gathering, design, development, testing, and deployment.

PROJECTS

- **Trello-Clone- Advanced Task Management Team Collaboration! ([Link](#))**

Trello-Clone is a modern task management tool that helps teams and individuals organize work with drag-and-drop ease. Built with Next.js, Supabase, and Clerk, it offers real-time updates, secure authentication, and smooth payments. With ShadCN UI, React DnD, and deployment on Vercel, it delivers a sleek, fast, and collaborative experience.

- **DineDash - Online Food & Delivery Platform ([Link](#))**

A highly scalable Food Delivery platform built with the MERN stack and TypeScript. Customers can seamlessly order food using filters, track live orders, view history, and pay securely via Stripe. Restaurants can easily register, manage menus, handle online orders, and receive payments efficiently. Technologies: MERN, Cloudinary, Stripe, Zustand, ShadCN.

- **ChatUp- Full Stack Chat Application ([Link](#))**

Developed a real-time chat application using the MERN stack with Socket.io for instant messaging and live presence updates. Built a modern responsive UI with React.js and DaisyUI (32 themes) and integrated Cloudinary for image sharing. Deployed on Render for scalability and reliability. Tech stack: React.js, Node.js, Express.js, MongoDB, Tailwind CSS, DaisyUI, Socket.io, Cloudinary, Render.

LEADERSHIP

- Played the role of a mentor for a group of 8 classmates and able to help them become Mern stack developers. Been a leader and organizer of several important programs and functions in university. Also got the opportunity to become team leader and guide team of four in Major and minor projects.
